Writing Steps in Math
Five Step Method

Prompt (What am I being asked to do?) I need to find out...

Information (What are the facts?) I know...

Strategy and Solution (What strategy will I use? What is the picture inside my head?) Show thinking using labeled diagrams/illustrations/charts/graphs.

Explanation (How will I solve this problem?) Step by step, using the required terms of transition, explain the solution from start to finish.
first, after that, then, next, because, since, finally
F A T N B S F

Conclusion (What is my final conclusion and does it make sense?) Look back. Use words from the prompt in your concluding statement.
Therefore...
