

(date)

Dear Parents,

Throughout the school year, I use my digital camera to take pictures of the children, their projects, and their interactions with others. In the past, we've only been able to enjoy them on our classroom computer screens. However, since we have a school website (www.rsd.edu/schools/lewisclark) we have an opportunity to post pictures on the web so you may enjoy them at home or share with other family members. However, for that to happen, I need your permission to post photographs. Please know that no last names will ever be used in student identification, and no list of the students will be available via the web. Samples of photo opportunities might include students who are the monthly reading goal achievers, the top five Accelerated Readers (per month), various business displays, field trips, and classroom projects (both individual and groups), and perhaps reading buddies.

Please respond below and return this note with your child so that I can have it on file here at school. I'll use my camera according to your wishes.

Thank you,

(teacher)

***** ***** ***** ***** ***** ***** ***** *****

Following the above limitations,

___ **I do**
___ **do not**

give permission for school photos of my child _____
to be posted on the classroom website.
