MAGIC CAMP...

- Provides a supportive and nurturing environment for girls to explore and develop basic skills in the areas of carpentry, electrical, and welding/cutting.
- Offers girls a gender-neutral environment to learn and practice new skills without fear of being teased or isolated.
- Develops greater self-confidence and self-esteem for girls who tackle challenging projects and successfully complete them.
- Develops a safety-first attitude and ‘we can do it’ mindset via the safety and history of women in construction seminars on the opening day of camp.
- Introduces girls to women role models who have achieved success in all areas of construction. From tradeswomen to engineers, architects to accountants, and project superintendents/supervisors and business owners, the girls learn there is room in the construction industry for their dreams too.
- Introduces students to valuable college and tradeswomen scholarship information.

Magic Camp is designed to offer girls the opportunity to learn about the countless avenues of employment available to women in the construction industry and to engage young women via hands-on training in basic construction skills. This opportunity to gain marketable skills and to experience the exhilaration of successfully performing difficult tasks builds self-confidence and boosts self-image.

Who can participate?
- Girls in grades 8 through 12.

If I participated last year, can I participate again this year?
- Students who participated last year will be put on a waiting list and if there is room available will be allowed to participate.

Dates: May 13-16 Time: 4:00-7:00
Location: Tri Tech Skills Center
Name: ____________________________
Address: __________________________
City, State, ZIP: _________________
Phone: ___________________________
Email: ___________________________
School currently attending: __________
